

Teknon Biocleanse Concentrate Testing Summary

Organism Tested	Test Carried out by	Concentration	Time	Notes
Pseudomonas aeruginosa	Abbott Analytical	1%	5mins	Using BS EN 1276 test method
Escherichia coli	Abbott Analytical	1%	5mins	Using BS EN 1276 test method
Staphylococcus aureus	Abbott Analytical	1%	5mins	Using BS EN 1276 test method
Enterococcus hirae	Abbott Analytical	1%	5mins	Using BS EN 1276 test method
Methicillin resistant staphylococcus aureus(MRSA)	Hospital Infection Research Laboratory	2%	1min	Using BS EN 1276 test method
Escherichia coli 0157	Abbott Analytical	5%	5mins	
Salmonella typhimurium	Abbott Analytical	5%	5mins	
Listeria monocytogenes	Abbott Analytical	5%	5mins	
Candida albicans	Abbott Analytical	5%	30mins	
Penicillium spp.	Abbott Analytical	5%	30mins	
Human immunodeficiency virus (HIV)	Micropathology Ltd	5%	5mins	
Hepatitis B virus (HBV)	Micropathology Ltd	5%	5mins	
Avian Flu	DEFRA	5%	30mins	
Clostridium Difficile	Abbott Analytical	5%	30min	Using BS EN 13727 test method
Clostridium Difficile	Abbott Analytical	5%	5mins	Using BS EN 13704 test method
Mycobacterium Terrae	Abbott Analytical	5%	1min	Using BE EN 14348 test method
Mycobacterium Avium	Abbott Analytical	5%	1min	Using BE EN 14348 test method

Biocleanse (Ready to Use) is equivalent to a 5% solution of Biocleanse Concentrate
